Policy, Systems Change, and Tangible Benefits Overview

The more than 500 wins cited below reflect all the Transformative 12 policy priority areas from the three campaigns of neighborhoods, schools, and prevention. They also represent substantial progress towards the North Star Goals and Indicators. Everything below is also connected directly to our Theory of Change and how sustainable healthy communities thrive. Most wins over the 7-year period are in the neighborhoods campaign.

Definitions

**Policy** - A policy change attempts to change public laws, regulations, rules, mandates (public policy), or budgets/funding.

**Systems Change** - A systems change attempts to shift the way broader systems (e.g., health, public safety, local government) make decisions about policies, programs, and the allocation or use of resources.

**Tangible Benefits** - A tangible benefit is defined as a newly established physical asset (building), space or facility (e.g., community centers, parks, health centers), as well as physical improvements (e.g., such as walking trails, playground equipment and murals) that resulted from TCE and/or BiC collaborative support within the site.

Overview
Healthy Communities is well on its way to firmly rooting the capacities most essential for long-term change in each site. Over 7 years the largest amount of work has been in the neighborhoods campaign. Under the Drivers of Change the majority accomplishments were in People Power and enhanced collaboration.

Definitions
